Bainbridge Sustainability ... What Will It Take?
A Framework of Northwest Regional Trends Affecting Bainbridge

Can we get to sustainability amidst our current trends toward sprawl, excessive energy use and loss of wildlife habitat. The good news is many strategies do match up to the challenge of creating sustainable communities.

Alan Durning of Sightline Institute (formerly Northwest Environment Watch) comes to Bainbridge with a look at where we stand today & powerful ideas for a more sustainable tomorrow, from creating vibrant walkable neighborhoods to seeing the health effects of excessive car use.
